

PRESS REALESE

N.01

It is with great pleasure that I, Alexandre Correia, officially begin my musical career with **"JIMMY AC MUSIC"**.

In addition to my dedication to art, I have been writing poetry since 1998, for a total of 27 years. These writings inspired the lyrics of the songs under the pseudonym JIMMY AC.

I use AI technology to create music with original lyrics, which I have registered with IGAC (General Inspection of Cultural Activities) under Registration **760/2025, dated June 24, 2025**.

All literary rights are legally protected for up to 70 years after my death.

The melodies are created according to my compositions, instructions, and technical guidelines, and they always accompany my lyrics. I do not create instrumental music only.

Any similarity to human music or the voices of existing singers is purely coincidental and algorithmic. I have immeasurable respect for real-life musicians and singers, and I have been an artist since childhood. We are all influenced by our surroundings, and I see artificial intelligence that way: It's a data monster influenced by centuries of music.

My drawing teachers certainly won't sue me for applying what they taught me. Not even *Wassily Kandinsky* would be upset if I painted abstract paintings inspired by him.

The world changes, and one day, artificial intelligence will become obsolete. I enjoy having this comprehensive view of history.

I was born in the '80s. I will therefore take advantage of what is available during my lifetime.

My greatest source of creative satisfaction will be when a band plays and sings my song! Then, I will have achieved my primary goal. I am open to proposals.

Until then, I will continue to maximize my creative potential and that of the machines.

For the record, I don't know how to play any instruments, I can't sing, and I've never been in the music business. However, in the *streaming* era, I'm one of those people who can rewind an audio tape with a pen.

Music has always been the soundtrack of my life.

I hope you like my songs and especially my lyrics.

After all, **"It's All About the Lyrics"**!
